

The 5th Annual Cytoscape Retreat

*Academic Medical Center, University of Amsterdam, Netherlands
5th – 9th November, 2007*

Wednesday 4th April, 2007

Dear Trey,

Thank you very much for offering to give a presentation at the Public Symposium section of the Cytoscape Retreat, your contribution is highly valued.

As you know, this is the first Cytoscape Retreat to be held in Europe so we hope that many members of the large European user community will attend this event. We also hope to attract people who may not currently be users of Cytoscape in order to raise awareness of the software and its emergence as a standard tool for the analysis of biological data in a network context.

To this end, we will be holding the Public Symposium in order to communicate innovative research in the field of network visualization and analysis, particularly where world class researchers have used Cytoscape as part of their work. The provisional timing of the symposium is **10:15 to 17:00, Thursday 8th November** and each talk is scheduled to last 45 mins. The symposium will then be followed by a Conference Dinner in the evening.

If you require any further information or if you have any questions at all, please don't hesitate to contact me. We will be in contact again to confirm travel and funding arrangements as soon as we have finalised the conference financing.

With Kind Regards,

Guy Warner
