

The 5th Annual Cytoscape Retreat

*Academic Medical Center, University of Amsterdam, Netherlands
5th – 9th November, 2007*

Wednesday 4th April, 2007

Dear Ewan,

May I introduce myself, my name is Guy Warner and I am part of the organizing committee for the 5th Cytoscape Retreat, taking place 5th – 9th November 2007 at the Academic Medical Center, University of Amsterdam, Netherlands. I would like to extend an invitation for you to give a presentation at the **Public Symposium on Thursday 8th November** entitled "Network-Based Approaches to Biological Data Integration and Analysis" as your contribution would be highly valued.

This is the first Cytoscape Retreat to be held in Europe so we hope that many members of the large European user community will attend this event. We also hope to attract people who may not currently be users of Cytoscape in order to raise awareness of this open-source software and its emergence as a standard tool for the analysis of biological data in a network context.

To this end, we will be holding the Public Symposium on Thursday 8th November in order to communicate innovative research in the field of network visualization and analysis, particularly where world class researchers have been involved with Cytoscape as part of their work.

The provisional timing of the Symposium is 10:15 to 17:00, followed by a Conference Dinner in the evening. We would be most grateful if you could let us know if you are able to accept this invitation so we can make the necessary arrangements. If you do require any further information or if you have any questions at all, please don't hesitate to contact me.

With Kind Regards,

Guy Warner
